ironwood gear saw service in the Atlantic, the Pacific and Arctic Oceans. This deadeye has been a conversation piece in the home of the Robert Grinnells of New York where it has been displayed on the Grinnell mantelpiece ever since they summered at Cuttyhunk some 30 years ago and combed the west beach of Cuttyhunk near the lighthouse digging in the sand near the point where the Wanderer broke up in August 1924. The Grinnells found this heavy deadeye ringed with a heavy iron fitting as shown in the photo and also several bronze spikes. Mrs. Hugh S. (Laura) Williamson, a friend of the Grinnells, learned recently that they planned to donate the piece to the Mystic Seaport. She interceded in behalf of Mattapoisett knowing about the Mattapoisett Historical Museum and believing that this Wanderer deadeye would have much more interest and meaning back in Mattapoisett. The Grinnells were convinced and have generously donated the relic to the Museum. Miss Lydia LeBaron Walker, of North Street, Mattapoisett, a friend of Mrs. Williamson and granddaughter of the Wanderer's builder, J. H. Holmes, is now custodian of the deadeye until it is turned over to the Mattapoisett

Museum. This will be the second of two major parts of the Wanderer's rigging on display in the town, since the mast has long served as a flagpole at Shipyard Park which overlooks the town wharf.

As part of the background of the story we have a brief history of this ship which was the last of hundreds built by Mattapoissett craftsmen. This history is by the late William H. Tripp who was curator of the New Bedford Whaling Museum.

### BRIEF HISTORY OF WHALING

BARK WANDERER by William H. Tripp

Whaling Bark Wanderer was the last vessel built at Mattapoissett, Mass.

The Whalemen's Shipping List published at New Bedford, under date of April 23, 1878, says:

"Bark Wanderer."

"Launched. The new Bark Wanderer, of 303 tons burthen was successfully launched from the Shipyard of J. H. Holmes & Son, at Mattapoissett on the 16th inst. She is owned by Messrs. Gifford and Cummings of this City and will be fitted for a whaling voyage to the North and South Atlantic Oceans, to be commanded by Capt. Andrew R. Heyer, late of Bark George & Susan. She is a First Class vessel of beautiful model, and for completeness in every respect reflects credit upon the skill of her

builders and the liberality of her owners."

Official number of the bark was 80665, her letters; J.S.V.K. She was 303.28 tons Gross; 288.13 Net; 116.2 feet in length; 27.6 feet in beam; and 15.8 feet in depth.

On June 4, 1878, the Wanderer sailed on her first voyage under command of Captain Andrew R. Heyer. She was bound for the Atlantic Ocean. She returned May 23, 1882 in charge of Captain Layton. Her catch was 2600 barrels of oil.

Her second voyage began August 29, 1882. She was commanded by Captain Thomas J. McLane, and sailed for the North Pacific Ocean. Later, Captain Thuman took over the vessel, and the Wanderer went into San Francisco November 15, 1883 with a cargo of 125 barrels of whale oil.

The agents of the Wanderer on her first voyage were Gifford and Cummings, and later Swift and Allen. When she started

her second voyage John P. Knowles, 2nd was her agent and he was succeeded by Josiah N. Knowles.

For the next 18 years after 1883, the home port of the Wanderer was changed to San Francisco, and she made 11 voyages to the North Pacific and Arctic Oceans. These voyages were of one year duration; the whaler sailing in December and returning to San Francisco the following November.

On these Arctic voyages she was commanded by the following skippers: Thuman, Smith, Winslow, Corrigan, Cleveland, Smith, Macomber, McInnis and Porter.

Her 13th voyage in command of Captain Porter was of four years duration. She sailed March 15, 1894 and the Wanderer returned to San Francisco, October 14, 1898. Four winters the vessel had spent frozen in off Herschell Island in the Arctic Ocean. The result of this long voyage was seven whales.

The Wanderer remained in port after this voyage, and Edwin L. Griffiths, who had

been her agent for the last four years, sold his interests to A.R. Nelson.

April 14, 1900, the whaler was withdrawn and she went into the merchant service. It is quite probable that she carried supplies to Nome, Alaska, for the Klondike miners.

In the latter part of 1902 or early in 1903, Captain Timothy C. Allen of New Bedford, Mass. became her agent; her home port was changed back to New Bedford; and on February 19, 1903, she sailed from San Francisco on a whaling voyage in command of Captain Benjamin D. Cleveland. She made a journey back home around Cape Horn and arrived at New Bedford September 4, 1904, after an absence of 22 years. Her catch on this voyage was 820 barrels sperm oil.

After 1904, New Bedford was the home port of the Wanderer, and all subsequent voyages were made from this port. The whaler sailed on 23 voyages in all, and was commanded by 22 different skippers.

Since 1904 her captains have been:

Shockley, Enos, Reed, Higgins, Jenkins, McKenzie, Mosher, Antone T. Edwards, Lewis, Joseph and John Edwards.

The Wanderer returned in 1917 from a four year voyage, under command of Captain Antone T. Edwards, with a cargo of 6200 barrels of oil; the largest voyage to her credit, and perhaps the largest in number of barrels of oil in the history of whaling.

Good luck had seemed to follow the Wanderer in her career as a whaler, although once in 1912 she was attacked by a wounded whale. On August 24, 1912, under command of Captain Lester A. Mosher, the bark was about 600 miles off Barbadoes, when the infuriated whale turned on the vessel. In the log it reads:

"Thought the whale was going to sink the ship, for at 8 o'clock he came for us head on, and we couldn't get out of his way. Made all the noise we could and slowed him up but he came alongside and tried to bite a piece out of her. At 10 o'clock he cut 4th mate's boat in two, killed one man and hurt another pretty bad, so boats had to cut, next morning at 10 o'clock, raised same whale 4 miles to windward, dead. Got him alongside and cut him in. Made just 100 barrels."

During the summer of 1922 the Wanderer,

which had just returned from a voyage, was chartered by the Whaling Film Co. and put under sail south of Noman's Land, and she was used in many of the stirring scenes of the famous moving picture, "Down to the Sea in Ships".

In 1924, although profits in whaling for several years had been rather slim, Captain Antone T. Edwards, who had been skipper of the Wanderer for about 10 years and who was a heavy owner in the whaler, decided to fit out for another voyage. On August 25th, 1924, the Wanderer sailed on what fate had decided was to be her last voyage. A light head wind had prevented the bark from going to sea that day, so the tug left her anchored a mile or so west of Mishaum Ledge bell buoy in Buzzards Bay. Captain Edwards and his friends returned to the city leaving the whaler in charge of the First Mate, Joseph A. Gomes, a whaleman of long experience. He had only fifteen men as a crew, some of these were working their passage to the Islands. The plan had been to go to Brava and there ship a crew for whaling.

## Rochester General Store

HOME OF ALICE'S COUNTRY KITCHEN. RTE. 105, Marion Rd., ROCHESTER. 763-5535

That night, a gale arose and by noon the next day the storm had reached hurricane proportions. At the height of the gale, the anchor chain parted, and a second anchor which was dropped, dragged. The steering gear went out of commission, and in this helpless state she was driven upon the treacherous rocks of the island of Cuttyhunk. The entire crew was saved but the vessel became a total loss. Wreckers salvaged provisions, whaling gear, sails, etc. from the wreck. The stout, rugged hull of the Wanderer remained wedged between the rocks until a second storm, which occurred September 30th, entirely destroyed it.

Thus ends the record of the last active square-rigged whaler out of New Bedford.

Old Dartmouth Historical Society

## Mandate Vanishes

Editorial, D.C.J.

Shortly after taking office Governor King was featured on a program on TV in which the Governor was interviewed by citizens of a broad spectrum from city and town government to the non-official person.

It was an extremely revealing format and

one that surely should precede an election and cover all of the candidates. Governor King was questioned in particular about his 500 million dollar tax cut promise to the state's electorate. The Governor stated flatly that this cut was a "mandate"; that not only did he expect to return this money to the cities and towns to ease the tax burden but that he expected those cities and towns to hold the line on spending at the same level as last year. A Selectman present asked King how the towns could do this since budgets were already in the process of being set for the fiscal year ahead. A Boston official mentioned that 10 million dollars was already written into the Boston budget to cover new union demands. King stated emphatically that the cities and towns of the Commonwealth should have taken his election to office to be a "mandate" for such economy and should prepare their budgets to reflect this "mandate". They should bargain harder with the unions he said.

Within the week, the new Governor announced that the promised 500 million surplus would have to be used to build new prisons and the promised tax relief would not occur because of this. He was sure the people "would understand".

We do understand. Those who did not vote

for the new Governor perhaps understood even better than those who did. Even so, the mandate has vanished into thin air but that same air floated the new Governor into power.

## Selectmen's Meeting

### 5% RAISE RECOMMENDED

Selectmen consulting with the Finance Committee and Personnel Board reached a decision to recommend a 5% general increase in salary for town employees to department heads who are preparing budgets. This follows the increase recently obtained by the Police Brotherhood in their contract for the Mattapoisett Police Department. The increase in the minimum wage next January was considered but will have small effect as few are in this level. Increases for elected officials and the Selectmen's Executive Secretary will be given consideration by the Finance Committee.

### MEET WITH HOUSING AUTHORITY

Selectmen met with the Mattapoisett Housing Authority, headed by June Mendell, Executive Director, and represented by

Counsel Anthony Luongo of Fall River, to obtain information about the projected Housing for the Elderly to be built with a \$1,920,000 grant from the state. The members said that the project will be for low income elderly and handicapped people only. Mrs. Mendell said that a survey made a long time ago had indicated that a number of Mattapoisett people would be interested and eligible. The exact number could not be recalled but Robert Humphrey, a member of the Authority, guessed about 30. The project will contain 60 units of one bedroom each funded entirely by the state. Tenant selection will be under the Department of Community Affairs regulation and the local Housing Authority. According to Mrs. Mendell each application will be treated individually. Since the earliest projected time for the project to be ready for occupancy is 1981 income guidelines could change in that time frame. Mattapoisett residents will be informed about financial requirements when a financial contract is signed with the D.C.A. Approximately one year

prior to completion of the project, applications will be distributed and private interviews conducted to obtain confidential financial data.

The Housing Authority understands that planning will not begin until July 1, 1979. Approval of full financing will await the completion of a feasibility study.

### LONG WHARF FUEL LICENSE DRAWN

Selectmen adopted an annual revocable license containing regulations for the fuel business on Long Wharf. The regulations provide for the filing of an oil spill prevention and control plan, a schedule of hours of operation of the pumps and requires the licensee to file an insurance policy against such perils as the Board of Selectmen shall from time to time determine. The Selectmen reserve the right to amend the regulation without notice. The licensee would then have the opportunity to comment. The regulations will be sent to Attorney Leonard Perry who represents Brownell Boat Yard.

### POLICE OFFICER ASKS BENEFIT

Retiring Patrolman Edward Cacilhas represented by Attorney John Xifaras met with Selectmen to ask benefits under Statute

4111. Counsel Xifaras said that both of Cacilhas' heart attacks (on June 11, 1978 and November 11) occurred while he was on duty and requested that sick leave be paid until such time as the county retirement board retires Cacilhas. He said that should that retirement board authorize retroactive pay, overlapping payment by the town would be returned. Town Counsel Donald Fleming requested that medical records be furnished before further consideration of the matter.

The letter of application for full time police officer by Janet Kennedy was placed on file.

HERRING COMMITTEE TO MEET

The Herring River Committee will meet at at 7:30 P.M. on February 8th at the Mattapoisett Town Hall.

MUTUAL AID PACT

Selectmen received a copy of the Emergency Medical Aid Agreement as signed by Police Chief Duane Tuttle at the Board of Selectmen's direction.

## Friday Night Fever

P.T.C. MEETING & DANCE LESSON

Just a quick reminder about the Mattapoisett P.T.C. informal meeting and dance lessons at Harbor Beach Restaurant next Friday evening, January 19th, at 7:30 P.M. sharp. We're looking forward to meeting many new parents and sharing with them some of our ideas and goals. Afterwards, Jim and Nancy Barrett promise a lively introduction to some of the newest dances. So, remember, next Friday, January 19th, 7:30 P.M. - a little "Friday Night Fever" with the Mattapoisett P.T.C.

## C & D TIRE & AUTO CENTER

Pine St., Rochester. 763-2896. Formerly Coutinho's

over 60 customers.

Patrick Hogan, son of Mr. and Mrs. Arthur Hogan of 10 Shady Oak Drive, is a freshman at ORRHS and has delivered the Standard-Times for almost 2 years to over 40 customers. Patrick hopes to use his route savings for college some day.

Mark Sanford, son of Mr. and Mrs. Ralph Sanford of Mattapoissett Neck Road, is in the 7th grade at ORRJHS and delivers to over 40 customers. He wears the same vest worn by his brother Neil and sister Caroline when they had routes.

By and large these 3 carriers agree that while their customers are all "pretty great", the biggest problems encountered in deliveries are the dogs roaming free who are defending their territory; and the speed of the traffic which at times is clearly excessive for conditions especially when visibility is poor or there are ice patches. Trucks on North Street, especially north of the Route 195 entrance, are particularly hazardous. All the carriers and their families agree that the bright orange safety-vest is most

## Labels Wanted

### STUDENTS COLLECTING SOUP LABELS

Once again it's Campbell-Soup-Label-Collecting-Time in Mattapoissett, sponsored by the P.T.C. The children of the Center and Old Hammondtown Schools will be bringing to school only the front portions of the labels from all Campbell's canned products, from Franco American canned products and from V-8 vegetable juice.

Center School children, families and staff are trying to collect 15,000 labels and are hoping to redeem them for a Study Mate.

Old Hammondtown people hope to save 13,100 labels for three mobile equipment tables and one Kodak Carousel slide tray.

Let's all work together to help our schools acquire useful items that just won't fit into their budgets. Mr. Reed, principal of Old Hammondtown, worked out that prices of the items in the catalog (based on label values) are comparable to decent discount prices.

If you have no children in these schools,

## Las Vegas Night

In case you forget to mark it on your calendar, the annual fund-raising event put on by the Mattapoisett Parent-Teachers' Club will be held at St. Anthony's Hall on Saturday, February 17, 1979.

11:15 P.M. If you would like to become included or donate a prize or service, contact Marsha Kelley (758-2072) or Sally Souza (758-6471). If you have a lucky streak or would just enjoy a good time, plan on joining us February 17th.

Varsity and J.V. Basketball teams opened their season with a victory against Cape Cod Tech. The Varsity score was 50-10 and J.V. was 39-3. In their next game the Varsity defeated Harwich by the score of 48-32 although the JV's lost 30-27. The following game the girls were defeated by New Bedford High, a Division I school, 42-32; the J.V.'s also lost 48-22. The Varsity lost their

second game to Wareham by a score of 48-20; the J.V.'s also lost by a score of

29-14. In their next game the varsity girls beat Old Colony 38-23. The J.V.'s also won by the score of 35-7. In their rematch with Wareham both varsity and J.V. again lost 44-28 and 41-19. Following Christmas vacation the girls opened their Division III league season by defeating New Bedford Voke 56-22 and Holy Family 31-28.

The leading scorer is Moira Clancy with an average of 9 points per game while Michele Moody is the team's leading rebounder with nearly 9 rebounds per game.

## Youth Hockey

PEEWEE A - New Design Kitchen tied Dartmouth at 2 all. Chris Smith, unassisted, and Mike Walega from Dan Lee and Chris Hilley accounted for Rochester's scoring.

SQUIRTS A - Aucoot Boat Yard lost 7-2 against New Bedford with Jeff Humphrey and Greg Centeio scoring.

## Your Health Care

### WHO PLANS FOR IT?

Barbara Fegan will speak at an open meeting on "Health Care Planning -- Why, by Whom and For Whom". The meeting will be held on Wednesday, January 17th, at 7:30 P.M. in the Auditorium of the Marion Congregational Church. Is is sponsored by the Marion-Mattapoisett Area League of Women Voters.

This Health Care meeting is extremely timely as a public hearing on the draft State Health Plan will be held on January 25 in Middleboro.

The Marion-Mattapoisett LWV urges everyone who is interested in health costs and care to come on the 17th. The Congregational Assembly Hall is reached from the back of the parking lot between the Marion General Store and Browne's

### "Suddenly Last Summer"

EXCITING AND DIFFERENT

A review by Edith Byrnes

The Gateway Players have dug up Tennessee Williams' dramatic exploration of cannibalism, "Suddenly Last Summer", and it provides a gripping and horrifyingly suspenseful psychological study for both actors and audience. Presented off-Broadway in the late 50's and starring America's most underrated actress Anne Meacham

Court Probation Officer for the Counties of Bristol, Barnstable, Dukes and Nantucket, will lead a seminar on "Juvenile Behavior" at the Marion Center for Human Services, 335 Wareham Road (Route 6), Marion, beginning Tuesday, January 30. The course will run from 7:00 to 8:30 P.M. and continue for ten consecutive Tuesdays.

The informal sessions will center around the theme of juvenile behavior and deal with such topics as the causes of juvenile delinquency, the maladjusted child, specific needs of the delinquent child, delinquency prevention, and youth work and the community.

Mr. Iacozza has had extensive experience in the field of juvenile behavior. He holds the B.A. degree from Boston University and has also done graduate work at Bridgewater State College. Mr. Iacozza has taught in several schools and served as a youth supervisor and outreach worker for the Youth Activities Commission in Boston before beginning his work with the Superior Court of Massachusetts.

There is a charge for the course which

## SMU

"WELCOME BACK TO SCHOOL DISCO"

An evening of disco music and dance will welcome students returning from vacation to Southeastern Massachusetts University on Saturday, January 20th, from 8 P.M. to 1 A.M. in the SMU Cafeteria.

The New York Disco Dancers, representing some of that city's top disco talent, will be the featured entertainment for the evening. The troupe caused a sensation when they appeared at last year's SMU disco.

Providing music for dancing will be New Bedford's own disco band, "Turningpoint", and the Disco Fantasia, a complete light-and-sound outfit from Westport.

Dress for the disco evening will be "club style", said Nestor Suarez, vice-president of the SMU's Black Student Union which is co-sponsoring the event.

Also sponsoring the "Welcome Back to School Disco" are the SMU Vets Club and the Foreign Language Club.

Tickets to the disco will be sold at Uncle

## Tournament Bridge

Jean Rogers and Betty Whayne playing with 52 different and unknown bridge partners were highly successful in winning the coveted gold and red master points, a sign of bridge competency and distinction. Their triumphs took place at the annual Open Regional Individual Bridge Tournament, the largest such tournament in the world, held the weekend of January 6-7 at the Copley Plaza Hotel in Boston. The tournament consisted of 250 bridge tables attended by 1000 bridge players from all over the United States and other countries.

Winners in the regular weekly bridge tournaments held last week at the Southworth Library, South Dartmouth, are announced.

Monday evening, January 8, in a Howell bridge movement designed to produce one winning pair Ruth Sweetser and E. J. Tomasik were first; Mary Terpeny and Etta Robichaud tied Mr. and Mrs. Jack Goldberg for second.

Horowitz and Harriet Philips were fourth; Ruth Musser and Robert D'Anjou tied Rae Blumberg and Helen Linehan for fifth place.

Wednesday morning continuing the Howell bridge movement in both sections the Section A winners were Ida Abrahams and Ann Gould, first; Helen Presnol and Alice Lipsett, second; Velma Marshall and Isabel Titus, third; Seena Mickelson and Helen

## LEGAL NOTICE

### SEWER USE REGULATIONS

The Board of Selectmen, acting as Sewer Commissioners, of the Town of Mattapoisett, Commonwealth of Massachusetts, acting in accordance with the provisions of Chapter 40, Section 21 and Chapter 83, Section 10 of the General Laws, as amended, hereby adopted the following Rules and Regulations governing connection to and use of the Town's common sewers.

#### ARTICLE I DEFINITIONS

Unless the context specifically indicates otherwise, the meaning of terms used in this Regulation shall be as follows:

- SEC. 1: Applicant shall mean any person requesting approval to discharge wastewaters into Municipal facilities or for a new connection to the public system.
- SEC. 2: "BOD" (denoting Biochemical Oxygen Demand) shall mean the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five (5) days at 20°C, expressed in milligrams per liter.
- SEC. 3: "Building Drain" shall mean that part of the lowest horizontal piping of a drainage system which receives the discharge from soil, waste, and other drainage pipes inside the walls of the building and conveys it to the building sewer, beginning ten (10) feet (3.05 meters) outside the inner face of the building wall.
- SEC. 4: "Building Sewer" shall mean the extension from the building drain to the public sewer or other place of disposal.
- SEC. 5: "Combined Sewer" shall mean a sewer receiving both surface runoff and sewage.
- SEC. 6: "Garbage" shall mean solid wastes from the domestic and commercial preparation, cooking, and dispensing of food, and from the handling, storage, and sale of produce.
- SEC. 7: "Industrial Wastes" shall mean the liquid wastes from industrial manufacturing processes, trade, or business as distinct from sanitary sewage.
- SEC. 8: "Natural Outlet" shall mean any outlet into a watercourse, pond, ditch, lake, or other body of surface or groundwater.
- SEC. 9: "Person" shall mean any individual, firm, company, association, society, corporation, or group including a city, county or other governmental unit.
- SEC. 10: "pH" shall mean the logarithm of the reciprocal of the weight of hydrogen ions in grams per liter of solution.
- SEC. 11: "Properly Shredded Garbage" shall mean the wastes from the preparation, cooking, and dispensing of food that have been shredded to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half ( $\frac{1}{2}$ ) inch (1.27 centimeters) in any dimension.
- SEC. 12: "Public Sewer" shall mean a sewer in which all owners of abutting properties have equal rights, and is controlled by public authority.
- SEC. 13: "Sanitary Sewer" shall mean a sewer which carries sewage and to which storm, surface, and groundwaters are not intentionally admitted.
- SEC. 14: "Sewage" shall mean a combination of the water-carried wastes from residences, business buildings, institutions, and industrial establishments, together with such ground, surface, and stormwaters as may be present.
- SEC. 15: "Sewage Treatment Plant" shall mean any arrangement of devices and structures used for treating sewage.
- SEC. 16: "Sewage Works" shall mean all facilities for collecting, pumping, treating, and disposing of sewage.
- SEC. 17: "Sewer" shall mean a pipe or conduit for carrying sewage.
- SEC. 18: "Shall" is mandatory; "May" is permissive.
- SEC. 19: "Slug" shall mean any discharge of water, sewage, or industrial waste which in concentration of any given constituent or in quantity of flow exceeds for any period of duration longer than fifteen (15) minutes, more than five (5) times the average twenty-four (24) hour concentration or flows during normal operation.
- SEC. 20: "Storm Drain" (sometimes termed "Storm Sewer") shall mean a sewer which carries storm and surface waters and drainage, but excludes sewage and industrial wastes, other than unpolluted cooling water.
- SEC. 21: "Superintendent" shall mean the Superintendent designated by the Sewer Commissioner of the Town of Mattapoisett, or his authorized deputy, agent, or representative.
- SEC. 22: "Suspended Solids" shall mean solids that either float on the surface of, or are in suspension in water, sewage, or other liquids, and which are removable by laboratory filtering.

## LEGAL NOTICE

SEC. 23: "Watercourse" shall mean a channel in which a flow of water occurs, either continuously or intermittently.

SEC. 24: The "Board" shall mean the "Board of Sewer Commissioners" of the Town of Mattapoisett.

#### ARTICLE II

##### BUILDING SEWERS AND CONNECTIONS

SEC. 1: No person shall uncover, make any connections with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the Superintendent.

Any person proposing a new discharge into the system or a substantial change in the volume or character of pollutants that are being discharged into the system shall notify the Board of Sewer Commissioners at least forty-five (45) days prior to the proposed change or connection.

SEC. 2: All costs and expense incident to the installation and connection of the building sewer shall be borne by the owner.

SEC. 3: A separate and independent building sewer shall be provided for every building required to have sewage collection and treatment by a proper government authority with the following exception:

- a. Any multiple family complex, a commercial complex, or an industrial complex which has a privately owned and maintained collector system.

SEC. 4: Old building sewers may be used in connection with new buildings only when approved in writing by the Superintendent.

SEC. 5: The size, slope, alignment, materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing, and back filling the trench, shall all conform to the requirements of the building and plumbing code or other applicable rules and regulations of the Town and specifications of the Sewer Commissioners. In the absence of code provisions or in amplification thereof the materials and procedures set forth in appropriate specifications of the A.S.T.M. and W.P.C.F. Manual of Practice No. 9 shall apply.

SEC. 6: Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by means approved by the Town's plumbing Inspector and discharged to the building sewer.

SEC. 7: No person shall make connection of roof downspouts, exterior or interior foundation drains, areaway drains, or other sources of surface runoff or groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer.

SEC. 8: The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing code or other applicable rules and regulations of the Town, or the procedures set forth in appropriate specifications of the A.S.T.M. and the W.P.C.F. Manual of Practice No. 9. All such connections shall be made gastight and watertight.

SEC. 9: The applicant for a building sewer permit or sanitary sewer connection permit shall make application on a special form furnished by the Town. The permit application shall be supplemented by any plans, specifications and or other information considered pertinent in the judgment of the Superintendent. The applicant for the building sewer permit shall notify the Superintendent when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the Superintendent or his representative.

SEC. 10: All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways, and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the Superintendent.

SEC. 11: The Board shall establish a Schedule of Entrance Fees and may amend the same from time to time. The Entrance Fee shall be a unit charge for each dwelling or business unit serviced by a direct or indirect connection made to a public sewer. This fee shall be paid prior to any work being commenced by the Town or the Owner to effect such connection. A single family house or one apartment unit shall constitute one dwelling unit and each individual business in a shopping center or business complex shall constitute one business unit. This fee shall be paid for each unit connected directly to the Town's sewer system as well as for each unit which is later added on to a sewer system which eventually deposits sewage into the Town

## LEGAL NOTICE

system. No building sewer permit or sanitary sewer connection permit will be issued unless the person applying for the permit has paid the required Entrance Fee.

**SEC.12:** Entrance Fees are established pursuant to Article II Section 11 shall not include installation and connection costs. All costs and expenses incident to the installation and connection of the building sewers, the installation of or the connection of sanitary sewers shall be borne by the Owner. The Owner shall indemnify the Town from loss or damage that may directly or indirectly be occasioned by the installation of the building sewer or the connection for the sanitary sewer. The Board shall establish a Schedule of Charges for the installation and connection of building sewers and the installation of connections for sanitary sewers and may amend the same from time to time. No building sewer permit or sanitary sewer connection permit will be issued unless the person applying for the permit has deposited with the Town a certified check, payable to the Town of Mattapoissett, in the amount determined by the Superintendent. In the event the cost of the installation and connection of a building sewer or the installation of a sanitary sewer exceeds the amount deposited with the Town by the Owner, then the Owner shall reimburse the Town for all costs exceeding the amount deposited. If reimbursement is not made, the costs shall be considered a lien upon the property served by the said building sewer.

**SEC.13:** All private sewers laid by private parties in any street, court or way, open, or proposed to be opened for public travel and accommodation, shall become public sewers when connected to public sewers or drains. After the adoption of this Regulation no such sewer shall be connected with a public sewer until plans showing size, material, construction, depth, and location are approved by the Superintendent and until the owner shall convey in writing to the Town exclusive control over the same, with the right to enter such street, court or way and dig up the same so far as necessary for repairing and controlling such sewer or drain and making connections therewith.

### ARTICLE III USE OF THE PUBLIC SEWERS

**SEC. 1:** No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof runoff, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer.

**SEC. 2:** No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

- a. Any gasoline, benzene, naptha, fuel, oil, or other flammable or explosive liquid, solid or gas.
- b. Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant.
- c. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc. either whole or ground by garbage grinders.

**SEC. 3:** No person shall discharge or cause to be discharged any substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such substances, materials, water or wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming this opinion as to the acceptability of these substances, materials, waters or wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. This prohibition shall include but not be limited to the following:

- a. Any liquid or vapor having a temperature higher than one hundred fifty (150°F) (65°C).

## LEGAL NOTICE

- b. Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100)mg/l or containing substances which may solidify or become viscous at temperatures between thirty-two (32°F) and one hundred fifty (150°F) (0°&65°C).
- c. Any garbage that has not been properly shredded. The installation and operation of any garbage grinder equipped with a motor of three-fourths (3/4) horsepower (0.76 hp metric) or greater shall be subject to the review and approval of the Superintendent.
- d. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solutions whether neutralized or not, unless heavy metals and other sludge have been adequately removed from said wastes in the opinion of the Superintendent.
- e. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
- f. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite sewage to meet the requirements of the State, Federal, or other public agencies or jurisdiction for such discharge to the receiving waters.
- g. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.
- h. Any waters or wastes having a pH in excess of 9.0 or any waters or wastes having a pH lower than 5.5, or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
- i. Materials which exert or cause:
  1. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
  2. Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).
  3. Unusual BOD, chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
  4. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.
- j. Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

**SEC. 4:** If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters or wastes contain the substances or possess the characteristics enumerated in Section 3 of this Article, and which in the judgement of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

- a. Reject the wastes.
- b. Require pretreatment to a condition acceptable to the Superintendent for discharge to the public sewers.
- c. Require control over the quantities and rates of discharge, and/or
- d. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Section 9 of this Article.

If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent, and subject to the requirements of all applicable codes, ordinances, and laws.

**SEC. 5:** Grease, oil, and sand interceptors shall be provided when, in the opinion of the Superintendent, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the Superintendent and shall be located so as to be readily and easily accessible for cleaning and inspection.

## LEGAL NOTICE

SEC. 6: Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

SEC. 7: When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters, and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.

SEC. 8: All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this regulation shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater", published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken). Normally, but not always, BOD and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples.

SEC. 9: No statement contained in this article shall be construed as preventing any special agreement or arrangement between the Town and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the Town for treatment, subject to payment therefore, by the industrial concern.

All industries discharging into a public sewer shall perform such monitoring of their discharges as the Board of Sewer Commissioners and/or other duly authorized employees of the Town may reasonably require, including installation, use, and maintenance of monitoring equipment, keeping records and reporting the results of such monitoring to the Board of Sewer Commissioners. Such records shall be made available upon request by the Board of Sewer Commissioners to other Agencies having jurisdiction over discharges to the receiving waters."

SEC.10: No septic tank solids shall be discharged into the Town's sewage works. All septic tank waste shall be discharged in accordance with regulations of the Mattapoisett Board of Health and/or Massachusetts Department of Public Health.

### ARTICLE IV INDUSTRIAL WASTES

SEC. 1: The Board is authorized and empowered to enter into agreements or to make other arrangements for handling and treating industrial wastes which in its opinion are amenable to treatment in the Town of Fairhaven's Sewage Treatment Plant.

The Board, shall determine charges to be levied against various industries for the handling and treating of its industrial wastes.

### ARTICLE V PROTECTION FROM DAMAGE

SEC. 1: No person shall maliciously, wilfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is a part of the sewage works. Any person violating this provision shall be subject to arrest and criminal prosecution.

### ARTICLE VI POWERS AND AUTHORITY OF INSPECTORS

SEC. 1: The Superintendent and other duly authorized employees of the Town bearing proper credentials and identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling, and testing in accordance with the provisions of this regulation.

## LEGAL NOTICE

SEC. 2: The Superintendent and other duly authorized employees of the Town bearing proper credentials and identification shall be permitted to enter all private properties through which the Town holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the sewage works lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

### ARTICLE VII PENALTIES

SEC. 1: Any person found to be violating any provision of this regulation, except for violations of the terms of Agreements entered into pursuant to Article VI, shall be served by the Town with written notice stating the nature of the violation. The offender shall, within the period of time stated in such notice, permanently cease all violations. Posting of notice on the property shall be construed as service of notice, if a copy of said notice is mailed to the owner as shown on the Assessor's Records at the address shown on said records, said mail to be sent Certified Mail, Return Receipt Requested.

SEC. 2: Any person who shall continue any violation beyond the time limit provided for in Article VII, Section 1, shall be guilty of a misdemeanor, and on conviction thereof, shall be fined in an amount not exceeding twenty (\$20.00) dollars for each violation. Each day in which any such violation shall continue shall be deemed a separate offense.

SEC. 3: Any person violating any of the provisions of this regulation shall become liable to the Town for any expense, loss, or damage including reasonable legal fees, occasioned the Town by reason of such violation.

### ARTICLE VIII VALIDITY

SEC. 1: All rules and regulations or parts of rules and regulations in conflict herewith are hereby repealed.

SEC. 2: The invalidity of any section, clause, sentence, or provision of this regulation shall not affect the validity of any other part of this regulation which can be given effect without such part or regulation.

### ARTICLE IX PERMIT

SEC. 1: Prior to any person installing or repairing a building, sewer and/or sanitary sewer or making any connection to the common sewer, the owner and contractor shall obtain a Special Work Permit from the Sewer Commissioners. The Permit shall be on such form as the Sewer Commissioners shall determine from time to time and shall fix the time of inspection of the work by the Sewer Commissioners or their designee.

SEC. 2: Any person applying for such Work Permit shall pay such fee as shall be fixed from time to time by the Sewer Commissioners. The fee shall cover the cost of issuing the permit and the inspection of the progress of the work.

SEC. 3: No person doing any work under a Work Permit shall cover over such work until the same has been inspected.

SEC. 4: A contractor who violates the provisions of this Article may, after hearing by the Sewer Commissioners, be denied any further Work Permits and any owner who hires such a contractor and knew or should have known of the violation or violations may be denied further Work Permits.

SEC. 5: The Sewer Commissioners may revoke any Work Permit for a violation of these Regulations, or the Sewer Commissioners may stop any further work under a Permit if they are of the opinion that said work may cause injury to the common sewer.

SEC. 6: The Sewer Commissioners may order any corrective work they believe necessary to any connection to the common sewer which they believe will avoid injury, harm or potential injury or harm to the common sewer system or the Fairhaven treatment plant.

### ARTICLE X VARIANCE

SEC. 1: The Sewer Commissioners, after a public hearing, may grant a variance from the Regulations to any property owner or occupant of land to be connected to the common sewer, if in the opinion of the Sewer Commissioners the allowance of a variance is in the best interest of the Town of Mattapoisett.

## LEGAL NOTICE

SEC. 2: Any such variance shall be in writing and filed with the records of the Sewer Commissioners and a copy filed with the Town Clerk. No variance shall become effective until said variance is so recorded.

SEC. 3: The Sewer Commissioners, after a public hearing and for cause may revoke any variance previously given.

### ARTICLE XI REGULATION IN FORCE

SEC. 1: This regulation shall be in full force and effect from and after its passage, and publication as provided by law.

#### BOARD OF SELECTMEN, ACTING AS SEWER COMMISSIONERS

William F. Hubbard, Chairman  
Richard W. Blasdale  
John N. DeCosta

January 10, 17, 24, 1979

#### SPECIFICATIONS FOR THE CONSTRUCTION OF HOUSE CONNECTIONS TO THE MATTAPOISETT SEWER SYSTEM

The following specifications detail minimum standards that must be followed by contractors installing sewer connections that tie into the Mattapoisett Sewer System.

**I-GENERAL:** No construction can be initiated unless a permit for the connection has been obtained from the Mattapoisett Board of Selectmen/Sewer Commissioner in accordance with the Mattapoisett Sewer Use Regulation. In addition, the Contractor must be licensed to perform such work in the Town of Mattapoisett and must be properly insured to protect private and public property.

The Contractor/Homeowner should check with the Mattapoisett Board of Selectmen/Sewer Commissioners to locate the house service that has been left at the property line for each home. Ties are available to locate the pipe in the field.

The existing house service is capped and is generally marked with a wooden stake to aid in locating. The cap to the existing sewer should not be removed until all water in the trench is removed. No surface drainage or groundwater should enter the existing house service. The Building Inspector will not allow any construction without proper dewatering of the trench and proper control of any surrounding surface water.

**II-MATERIALS:** The following materials can be used for the construction of a house service in Mattapoisett.

- Asbestos Cement Pipe, minimum class 1500, with couplings and rubber rings for joints.
- Plastic Pipe meeting ASTM D 30-34 with a SDR 35. Joints shall be bell and spigot with rubber rings.
- Cast Iron Pipe meeting AWWA-H3 (ANSI A21.50) with rubber gasket joints in accordance with AWWA C111 (ANSI A21.11). In most cases a 4" house service has been left for each homeowner. Thus, the house connection pipe shall be 4" unless otherwise noted.

#### III-CONSTRUCTION:

- Excavation by the Contractor shall consist of a trench with a maximum width of 3 feet. The final 6 inches of the trench shall be excavated by hand so that proper bedding for the pipe and the bells is attained.
- In the construction of sewer house connections, the pipe shall be laid on an even-tamped foundation of coarse sand, fine gravel or 3/4" crushed stone except that when wet or soft soil conditions prevail, 3/4" crushed stone shall be used for foundation of all pipe. The backfill shall be thoroughly compacted by tamping or other approved methods up to the spring line of the pipe.
- Pipe shall be laid to a reasonable straight line and preferably at not less than 2% grade. For a 4 inch pipe, a grade of 1/4"/ft. is required with 1/8"/ft acceptable for 6 inch pipe.
- The Contractor shall insure that a minimum of 4 ft. of cover is provided over the house connection pipe. If cast iron pipe is used, the cover may be reduced to 3ft.

## LEGAL NOTICE

e.) Installed pipe and joints shall be free of all foreign matter. No construction will be allowed in water. The Contractor must dewater the trench to insure proper installation of the pipe.

f.) Care shall be taken during backfilling to insure that the pipe is not injured or disturbed by stones or other material. Backfill material to a foot above the pipe shall be a granular material with no large stone on or near the pipe. The backfill shall be thoroughly compacted by tamping or other approved methods up to finished grade.

g.) Before backfilling the pipe, the Contractor must notify the Building Inspector that the house service connection is complete and ready for inspection. No final tie-in of the house plumbing to the new pipe can be made without a final review and approval of the Building Inspector.

h.) The final connection to the cast iron pipe from the home shall be made watertight by using a special fitting or adaptor that is available for the pipe. No other connection will be approved for use in Mattapoisett.

i.) The house service pipe should be laid in a separate trench 5 ft. away from an existing water service or gas service. Deviations from this must be brought to the attention of the Building Inspector.

j.) Should the above procedure not be followed, the Building Inspector is authorized to reject the house connection work. Corrective action in accordance with the above will be required before final acceptance and a connection to the Mattapoisett sewer system can be made.

### MORTGAGEE'S SALE OF REAL ESTATE

By virtue and in execution of a power of sale contained in a certain mortgage given by KENNETH A. ELLIS and PATRICIA T. ELLIS, husband and wife, of Fairhaven, Bristol County, Commonwealth of Massachusetts to NEW BEDFORD FIVE CENTS SAVINGS BANK, a corporation established by authority of the Commonwealth of Massachusetts and doing business at New Bedford, Bristol County, said Commonwealth, dated April 14th, 1976 and recorded with Plymouth County Registry of Deeds, Book 4152, Page 431, of which mortgage the undersigned is the present holder, for breach of the conditions of said mortgage and for the purpose of foreclosing the same will be sold at public auction on Wednesday, February 7th, 1979, at 11:45 o'clock A.M., on the premises, all and singular the premises described in said mortgage, to wit:

Land situated in Mattapoisett, Plymouth County, said Commonwealth, bounded and described as follows:

"BEGINNING at the southwesterly corner of the land herein mortgaged at the northeasterly corner of Highfield Road and Oliver Way;

thence NORTH 4° 28' 50" WEST by said Oliver Way, one hundred twenty-three and 54/100 (123.54) feet to a stone wall; thence NORTH 73° 47' 40" EAST in line of said stone wall by land now or formerly of Ella F. Vaughan, one hundred sixty-two and 94/100 (162.94) feet to land now or formerly of Norman Soares, et ux;

thence SOUTH 17° 56' 00" EAST by last-named land, one hundred twenty-two (122) feet to the northerly line of said Highfield Road; and

thence SOUTH 73° 47' 40" WEST in said line of Highfield Road, one hundred ninety-one and 70/100 (191.70) feet to the point of beginning.

BEING the westerly portion of Lot #2 on Plan of Land in Mattapoisett, Mass., surveyed for Thaddeus Walega and Edwin Livingstone, Jr., dated July 30, 1963, Samuel H. Corse, Surveyor, filed with Plymouth County Registry of Deeds in Book 3074, Page 94.

BEING the same premises conveyed to us by deed of William K. Wilbur, et ux, of even date to be recorded herewith."

Subject to all unpaid taxes

TERMS: 10% in cash or certified check; Balance in 10 days upon delivery of deed.

Dated: January 4th, 1979

## Spend a little. Save a lot.

Get a Honeywell

Compared to the increasing cost of energy, \$59.95 is a small price to pay for the year after year savings a Honeywell Fuel Saver Thermostat brings. It can cut your heating costs from 9 to 30% by automatically lowering temperature at night, raising it in the morning. Saves while you work too! Add a new dimension to your energy-saving and budget-saving efforts. Get a Honeywell Fuel Saver Thermostat.

### MORTGAGEE'S SALE OF REAL ESTATE

By virtue and in execution of a power of sale contained in a  
certain mortgage given by MILTON H. HEUBERGER, JR. and  
LYDIA E. HEUBERGER, husband and wife, of Mattapoisett, Ply-  
mouth County, Commonwealth of Massachusetts to NEW BED-  
FORD INSTITUTION FOR SAVINGS, a corporation established by  
authority of the Commonwealth of Massachusetts and doing busi-  
ness at New Bedford, Bristol County, said Commonwealth, dated  
October 16th, 1975 and recorded with Plymouth County Registry  
of Deeds, Book 4108, Page 562, of which mortgage the under-  
signed is the present holder, for breach of the conditions of  
said mortgage and for the purpose of foreclosing the same will  
be sold at public auction on Wednesday, February 14th, 1979,  
at 10:00 o'clock A.M., on the premises, all and singular the  
premises described in said mortgage, to wit:  
Land situated in said Mattapoisett, said County and Common-  
wealth, bounded and described as follows:  
"BEGINNING at a point at the intersection of the south line of  
Hammond Street and the east line of Pearl Street;  
thence NORTH 81° 20' 50" EAST in the south line of Hammond  
Street, eighty four and 96/100 (84.96) feet to land now or  
formerly of Jose B. Carvalho, et ux;  
thence SOUTH 10° 24' 10" WEST by land of said Carvalho, one  
hundred twenty and no/10 (120.0) feet to land now or formerly  
of Manuel Linhares;  
thence SOUTH 81° 20' 50" WEST by land of said Manuel Linhares,  
eighty-six (86) feet, more or less, to the east line of Pearl
